

A new feature in this module version is that we have made a new calculation on discount with Swedish vat rules. This setting has primarily been developed for those of you that are using different vat types in your store. This setting can be enabled or disabled as seen in the image below, it is up to you as merchant if this should be applied.

Payson All in one Payment		
Payson Invoice requires a separate contract. Please contact Payson for more information Click here		
Test mode	<input type="text" value="Yes"/>	[STORE VIEW]
