

## Payson Magento - All in One

The Payson all in one module will display all available payment options, including invoice. The previous Payson modules will display two separate payment windows as seen in pictures 1 and 2.

With the new module it will be easier for the customer to try with a different payment option if the first choice fails for some reason. Picture 3 shows the payment page created by the new module.

Picture 1

The screenshot shows the Payson payment interface. At the top, the Payson logo and tagline 'Easy and secure payments on the web' are visible. The user's email account is 'karlbrunding@hotmail.com'. The payment amount is 340.00 kr, and the payment receiver is 'Test Payson' (testagent-1@payson.se). The 'FAKTURA' payment method is selected, with a 'Change payment method' button. Below this, there is a form for entering the Swedish ID number (YYMMDD-NNNN) and Zip Code (NNN NN). A 'Confirm' button is at the bottom. On the right, the order details are shown: 'Order från Default Store View'. The order table lists two items: 'Test product' (3 units, 297.00 kr) and 'Flat Rate - Fixed' (1 unit, 15.00 kr). The total is 340.00 kr, with VAT at 64.73 kr and an invoice fee of 28.00 kr. A 'Cancel payment' button is at the bottom right.

DETAILS	NUMBER	DESCRIPTION	TOTAL
+	3	Test product	297,00
+	1	Flat Rate - Fixed	15,00
<b>TOTAL</b>			340,00 kr
VAT			64,73 kr
INVOICE FEE			28,00 kr

Picture 2

The screenshot shows the Payson payment interface with multiple payment methods available. The total amount is 312.00 kr, and the payment receiver is 'Test Payson' (testagent-1@payson.se). The payment methods listed are: 'FAKTURA' (Payson Invoice), 'VISA' (Card), 'SveBank och Sparbankerna' (Internet bank), 'SEB' (Internet bank), 'Handelsbanken' (Internet bank), 'Nordea' (Internet bank), and 'Danske Bank' (Internet bank). On the right, the order details are shown: 'Order från Default Store View'. The order table lists two items: 'Test product' (3 units, 297.00 kr) and 'Flat Rate - Fixed' (1 unit, 15.00 kr). The total is 312.00 kr, with VAT at 59.40 kr. A 'Cancel payment' button is at the bottom right.

DETAILS	NUMBER	DESCRIPTION	TOTAL
+	3	Test product	297,00
+	1	Flat Rate - Fixed	15,00
<b>TOTAL</b>			312,00 kr
VAT			59,40 kr

**Please note** that the final sum paid by the customer will depend on whether the order is paid by invoice or not. This installation guide will give you all the details on how this will be displayed in the Magento backend.

## Installation guide for the Payson module to Magento

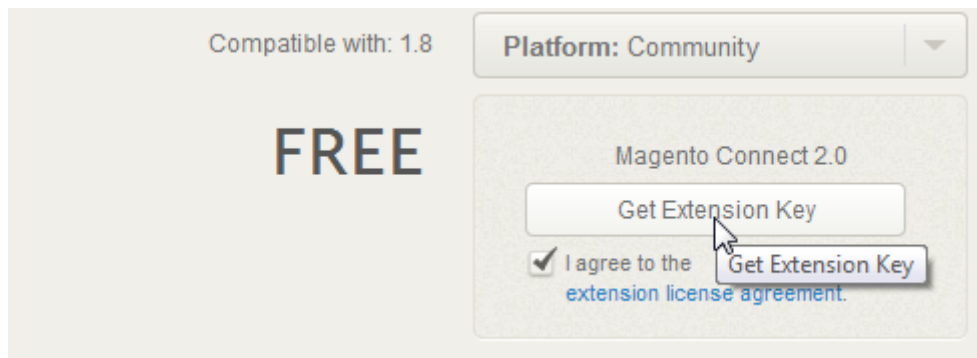

This guide will assume that you have already installed the latest version of Magento. The Payson module is available from <http://www.magentocommerce.com/magento-connect/payson-2617.html>

Log in to Magento Connect.

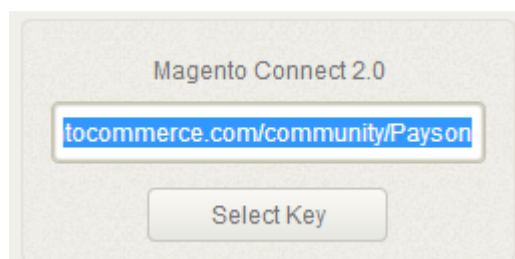

The screenshot shows the Payson module page on Magento Connect. On the left, there is a large image of the Payson logo with the tagline "One contract One integration" and logos for Handelsbanken, SEB, Nordea, Swedbank, VISA, and Mastercard. Below this are four smaller images showing screenshots of the module's functionality. On the right, the module name "Payson" is displayed in orange, followed by a five-star rating and a "Write the first review" button. Below the rating is a "Follow this extension" link. A description states: "Official Payson module for Magento. Use this to be able to handle invoice, card and direct bank transfers." It also shows "Compatible with: 1.8" and a dropdown menu for "Platform: Community". A large "FREE" label is present, and a blue "Install Now" button is at the bottom right. A tooltip over the button says: "This will install the latest version."

Download the Payson extension by clicking the “install now”.

This screenshot shows the "Get Extension Key" step. It features a "Platform: Community" dropdown menu and a "FREE" label. The main action is a "Get Extension Key" button. Below it, there is a checkbox labeled "I agree to the extension license agreement." which is checked. A tooltip over the "Get Extension Key" button says: "This will install the latest version."

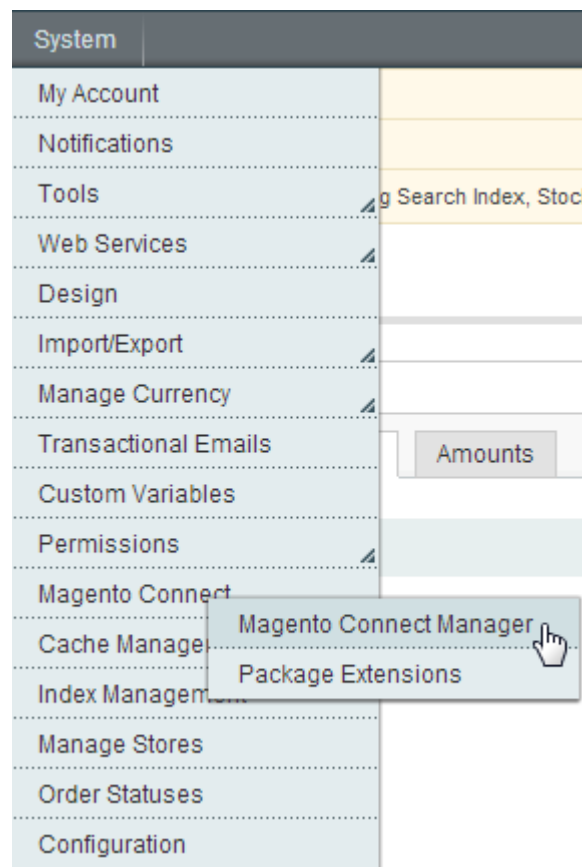

Read the license agreement and check the checkbox if you agree to the terms. Click the “Get extension key”- button. In the following box – click “select key” and copy the link address - you will need it in the next step.

This screenshot shows the "Select Key" step. It features a "Platform: Community" dropdown menu and a "FREE" label. The main action is a "Select Key" button. Below it, there is a text box containing the URL "tocommerce.com/community/Payson" which is highlighted in blue. A tooltip over the "Select Key" button says: "This will install the latest version."

## Magento store

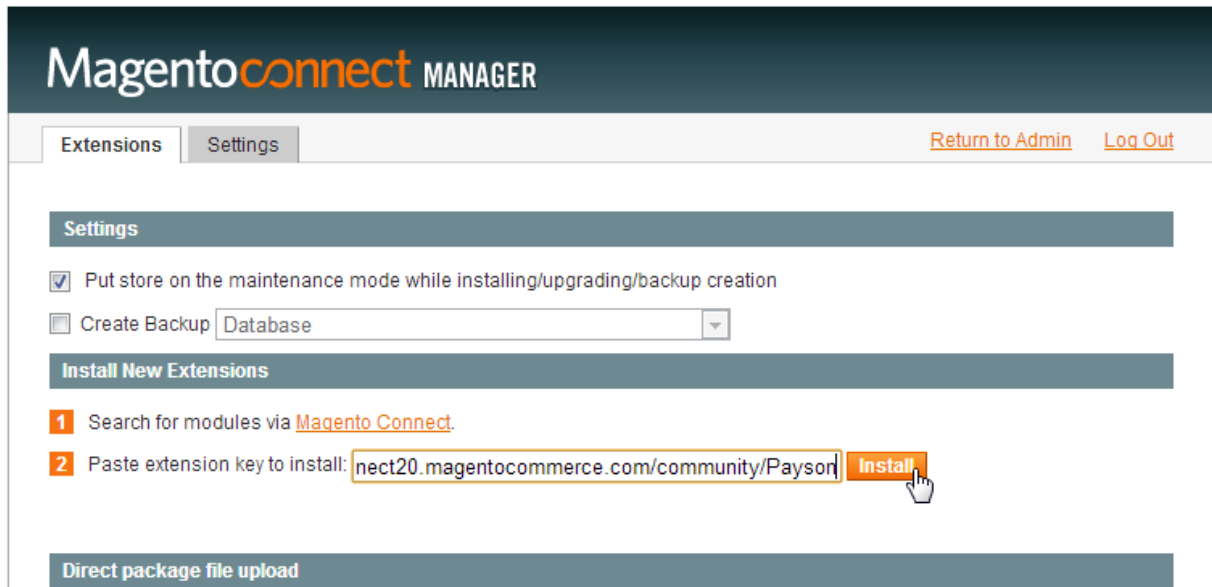

Log in to the administration pages of your store with your admin credentials and find the “Magento Connect” option in the System tab. Select “Magento Connect Manager” in the submenu.

Enter your admin credentials for your Magento store once more.

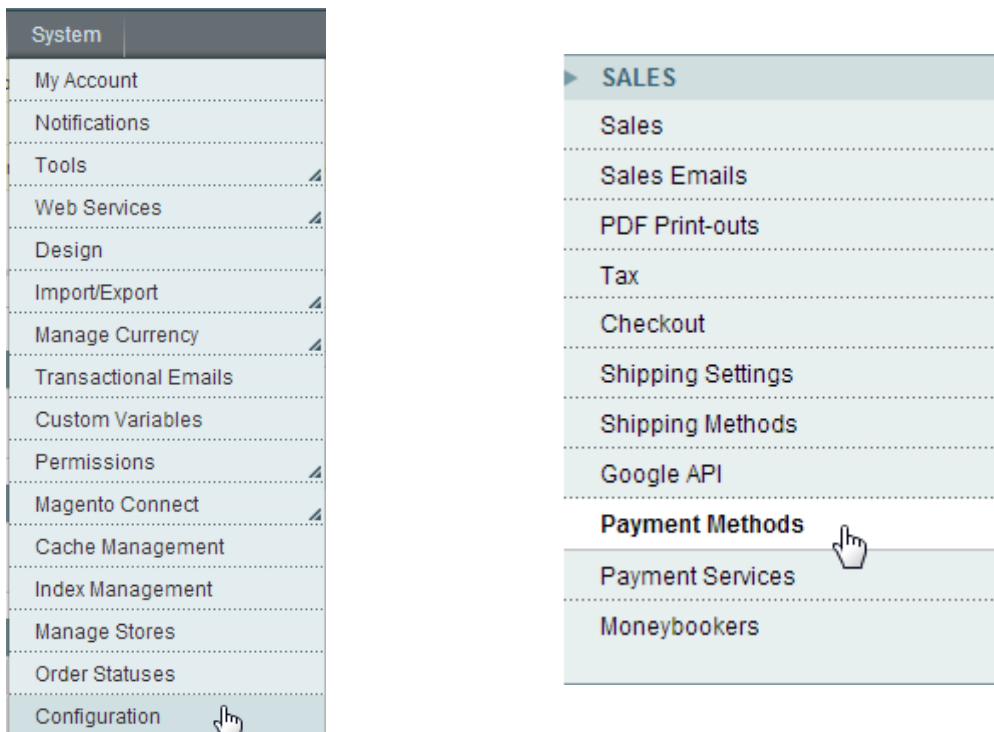

A screenshot of the Magento Connect Manager login page. The page has a dark header with the text 'Magentoconnect MANAGER'. Below the header is a light gray box containing the login form. The form has the title 'Log In' and two lines of instructions: 'Please re-enter your Magento Administration Credentials.' and 'Only administrators with full permissions will be able to log in.' There are two input fields: 'Username:' with the text 'Admin' and 'Password:' with masked characters '.....'. Below the password field is an orange 'Log In' button with a mouse cursor pointing at it. At the bottom of the page, there is a footer with the text: 'Help Us to Keep Magento Healthy - [Report All Bugs](#) (Magento Connect Manager ver. 1.8.0.0)' and 'Magento is a trademark of Magento, Inc. Copyright © 2013 Magento Inc.'

Find “Install New Extensions”, paste the extension key you got from Magento Connect and click the install button.

Press “commit changes”, followed by “Return to Admin”.

Select Configuration -> Payment Methods in the System tab.

Fill in the required fields: E-mail, Agent ID and MD5-key. Set “Aktivera Payson faktura” to “Yes” and press “Save Config” if you want to use the invoice option. You need to sign a separate contract to use Payson Invoice in your webshop.

Please remember that our Invoice option is only available in Sweden.

### Payson invoice setup

Payson Invoice requires a separate contract. Please contact Payson for more information [Click here](#)

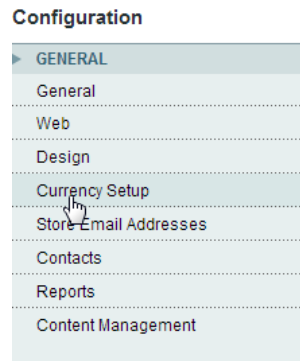

Enabled	<input type="text" value="Yes"/>	[STORE VIEW]
	▲ Aktivera eller inaktivera faktura med Payson.	
Momsklass för fakturaavgift	<input type="text" value="None"/>	[STORE VIEW]
	▲ Momsklass för fakturaavgift.	
Fakturaavgift (SEK)	<input type="text" value="30"/>	[STORE VIEW]
	▲ Fakturaavgift för SEK utan moms.	

In order to get the invoice options to appear as seen in the picture above, you will first have to enable the invoice payment method and click save. Now you should be able choose Invoice as one of the available payment options.

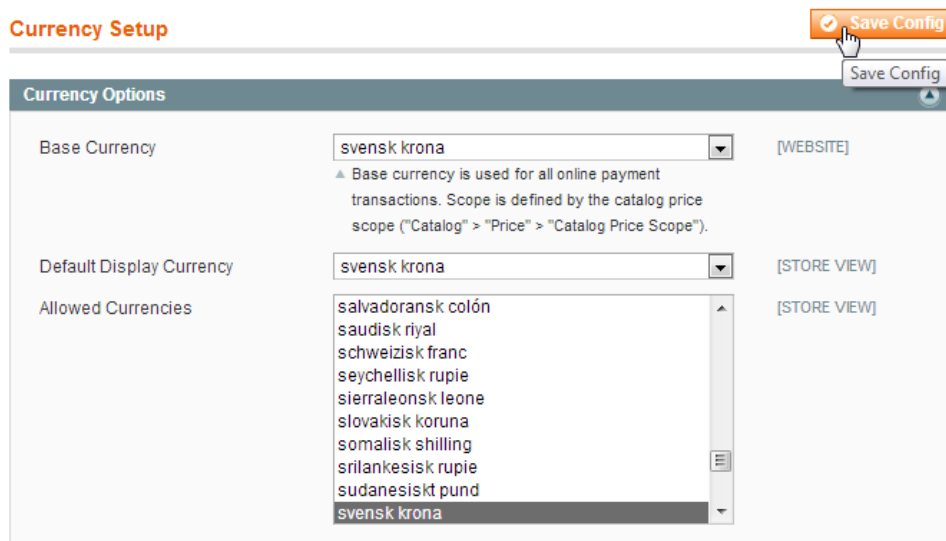

## Currency Setup

The Payson module supports Euro and Swedish krona (SEK) and this example covers how to install SEK.

Go to “Currency Setup” found in the menu under System -> Configuration -> General

Choose your preferred currency in the list, and press “Save Config”.

## Order example

In this section we will show you the difference between the all-in-one module and the other Payson module available for Magento.
